

We are pleased to offer energy saving, seamless, elastomeric roofing systems throughout northern Illinois and southern Wisconsin. Visit us at www.greenprochicago.com or call **847.295.7900** for a **FREE Consultation**.

Roof Coating Benefits:

- Most cost effective install, saves up to 60% vs. tear off / new roof - better ROI
- Extends roof life by 10, 15, or 20 years with manufacturer warranties
- Eliminates tear off costs and environmental impact; LEED approved
- Durability in harsh climates; tropical to frozen. Unaffected by altitudes / ponding H2O
- Reduces lifetime roofing maintenance costs, creates sustainable savings
- Becomes maintenance expense vs. capital expenditure; accounting benefits
- Creates “GREEN” seamless roof; becomes renewable & sustainable
- Reduces energy consumption, increases HVAC life; potential energy incentives
- Numerous endorsements: Factory Mutual, Dade County, Energy Star, etc.

Selecting a roof coating eliminated the need to tear off our store's roof, kept us open for business without exposure to a fire, and solved our water/leakage issues the day it was applied, while costing 40% less than re-roofing.

Glidden Professional

Applications:

Flat/low slope metal, concrete, plywood roof decking, parapet walls, curbs, penetrations, flashing, and all types of roofing substrates including epdm, modified bitumen, ballasted, granulated cap sheet, etc. Water based, fluid applied, LEED approved. Reflective roofs and custom options available.
